MOBILE GAMING IS BORING

Mobile gaming often feels monotonous with repetitive turn combat, auto combat, and auto pathing. Despite Pokémon success, the lack of Pokémon or expansive open-world game on mobile leaves players craving more engaging experiences on devices. The lack of crossplay (PC Support) is also playing

WE KNOW WHAT PLAYERS WANT

With Cinderwake, we draw from our experience developing previous projects, a turn-based Pokémon-style game. While previous projects was fun, it lacked the uniqueness players craved. Leveraging our expertise in crafting web3 games, we understand what players desire. Cinderwake goes beyond the norm, offering a vast open world, NFT integration, and dynamic gameplay. By listening to player feedback and building upon our knowledge of the gaming industry, we've created an immersive experience that meets players' desires head-on. Cinderwake isn't just another game; it's a testament to our commitment to deliver what players truly want.

THE WORLD OF CINDERWAKE

Dive into the breathtaking world of Cinderwake, where the skies teem with majestic dragons of unparalleled abilities awaiting your command! Traverse vast landscapes, from lush forests to treacherous mountains, as you collect an array of unique dragons each with their own awe-inspiring powers.

Challenge formidable bosses, engage in heart-pounding battles against fellow players and creatures, and unravel hidden secrets lurking within the realm. With its groundbreaking web3 integration on the Solana blockchain, Cinderwake offers an unparalleled gaming experience that will leave you on the edge of your seat, hungry for more adventure!

AN OPENWORLD EXPERIENCE

Cinderwake sets itself apart in mobile gaming by offering players a sprawling open world to explore, a feature seldom seen in mobile games. From lush forests to towering mountains, the game world beckons adventurers to embark on epic journeys and uncover its hidden secrets.

Cinderwake's expansive open world not only provides hours of exploration and entertainment but also sets a new standard for mobile gaming experiences. With its vast landscapes, rich environments, and immersive gameplay, Cinderwake invites players to embark on unforgettable adventures right at their fingertips. Prepare to lose yourself in a world unlike any other, where the possibilities are as limitless as your imagination.

A **UNIQUE** BREEDING SYSTEM

In Cinderwake, the allure of creatures lies in their rarity, each one as unique as a gemstone. The game meticulously tailors every hatched creature, ensuring a truly personalized experience. From common to legendary, creatures come in various rarities, each boasting distinct traits and abilities.

This rarity system not only fuels excitement but also fosters player retention. Unlike other creature-collecting games, Cinderwake's competitive edge shines with the concept of limited breeding opportunities, enhancing scarcity and rarity. Certain creatures can only breed once, adding a layer of strategy and increasing their coveted status among players.

DIFFERENT ELEMENT

In Cinderwake, dragons and creatures are imbued with elemental diversity, ranging from traditional elements like fire, water, and wind to more exotic and undiscovered elements waiting to be unveiled. Each creature possesses its own unique elemental composition, influencing their abilities, strengths, and weaknesses.

From scorching flames to tranquil waters, these elements shape the world of Cinderwake and add depth to gameplay. Players will encounter a wide variety of creatures, each harnessing the power of their elemental essence, as they embark on epic adventures and unravel the mysteries of this enchanting realm.

DIFFERENT CREATURES

In Cinderwake, an enchanting variety of creatures stand ready to aid players, each offering unique abilities and perks. From loyal combat companions to majestic mounts and even suppliers of valuable crafting materials, these creatures enrich every aspect of the game.

However, among them, legendary rarities emerge on special occasions, boasting unparalleled power and prestige. These legendary beings, appearing sporadically and vanishing for extended periods, up to months, add an extra layer of excitement and challenge to the adventure, rewarding those who encounter them with truly exceptional experiences.

WEAPON DIVERSITY IN CINDERWAKE

In Cinderwake, players have access to a diverse array of weapons, each tailored to suit different playstyles and combat scenarios. From firearms and swords to bows and magical staves, the game offers a wide variety of options for players to wield. Each weapon in Cinderwake has its own unique utility and strengths. Some weapons may excel in close-quarter combat, while others are better suited for ranged attacks or magical abilities.

One of the key features of Cinderwake is the ability for players to craft and sell weapons. By gathering materials and resources found throughout the game world, players can craft their own weapons, customizing them to their liking. These crafted weapons can then be sold to other players, allowing for a dynamic player-driven economy.

TOKENIZE YOUR CRAFTED ASSETS

In Cinderwake, players have the exciting opportunity to craft items, which hold unique attributes and capabilities. What sets these items apart is their potential to be turned into Non-Fungible Tokens (NFTs), a revolutionary concept in the world of gaming. Through the process of tokenization, these crafted items are transformed into digital assets with inherent value, secured on the Solana blockchain via Web3 technology.

Once converted into NFTs, these exotic items can be traded on digital marketplaces, allowing players to buy, sell, and collect them as virtual treasures. This introduces a whole new dimension of ownership and investment within the game, as players can now truly own their virtual possessions beyond the confines of the game world.

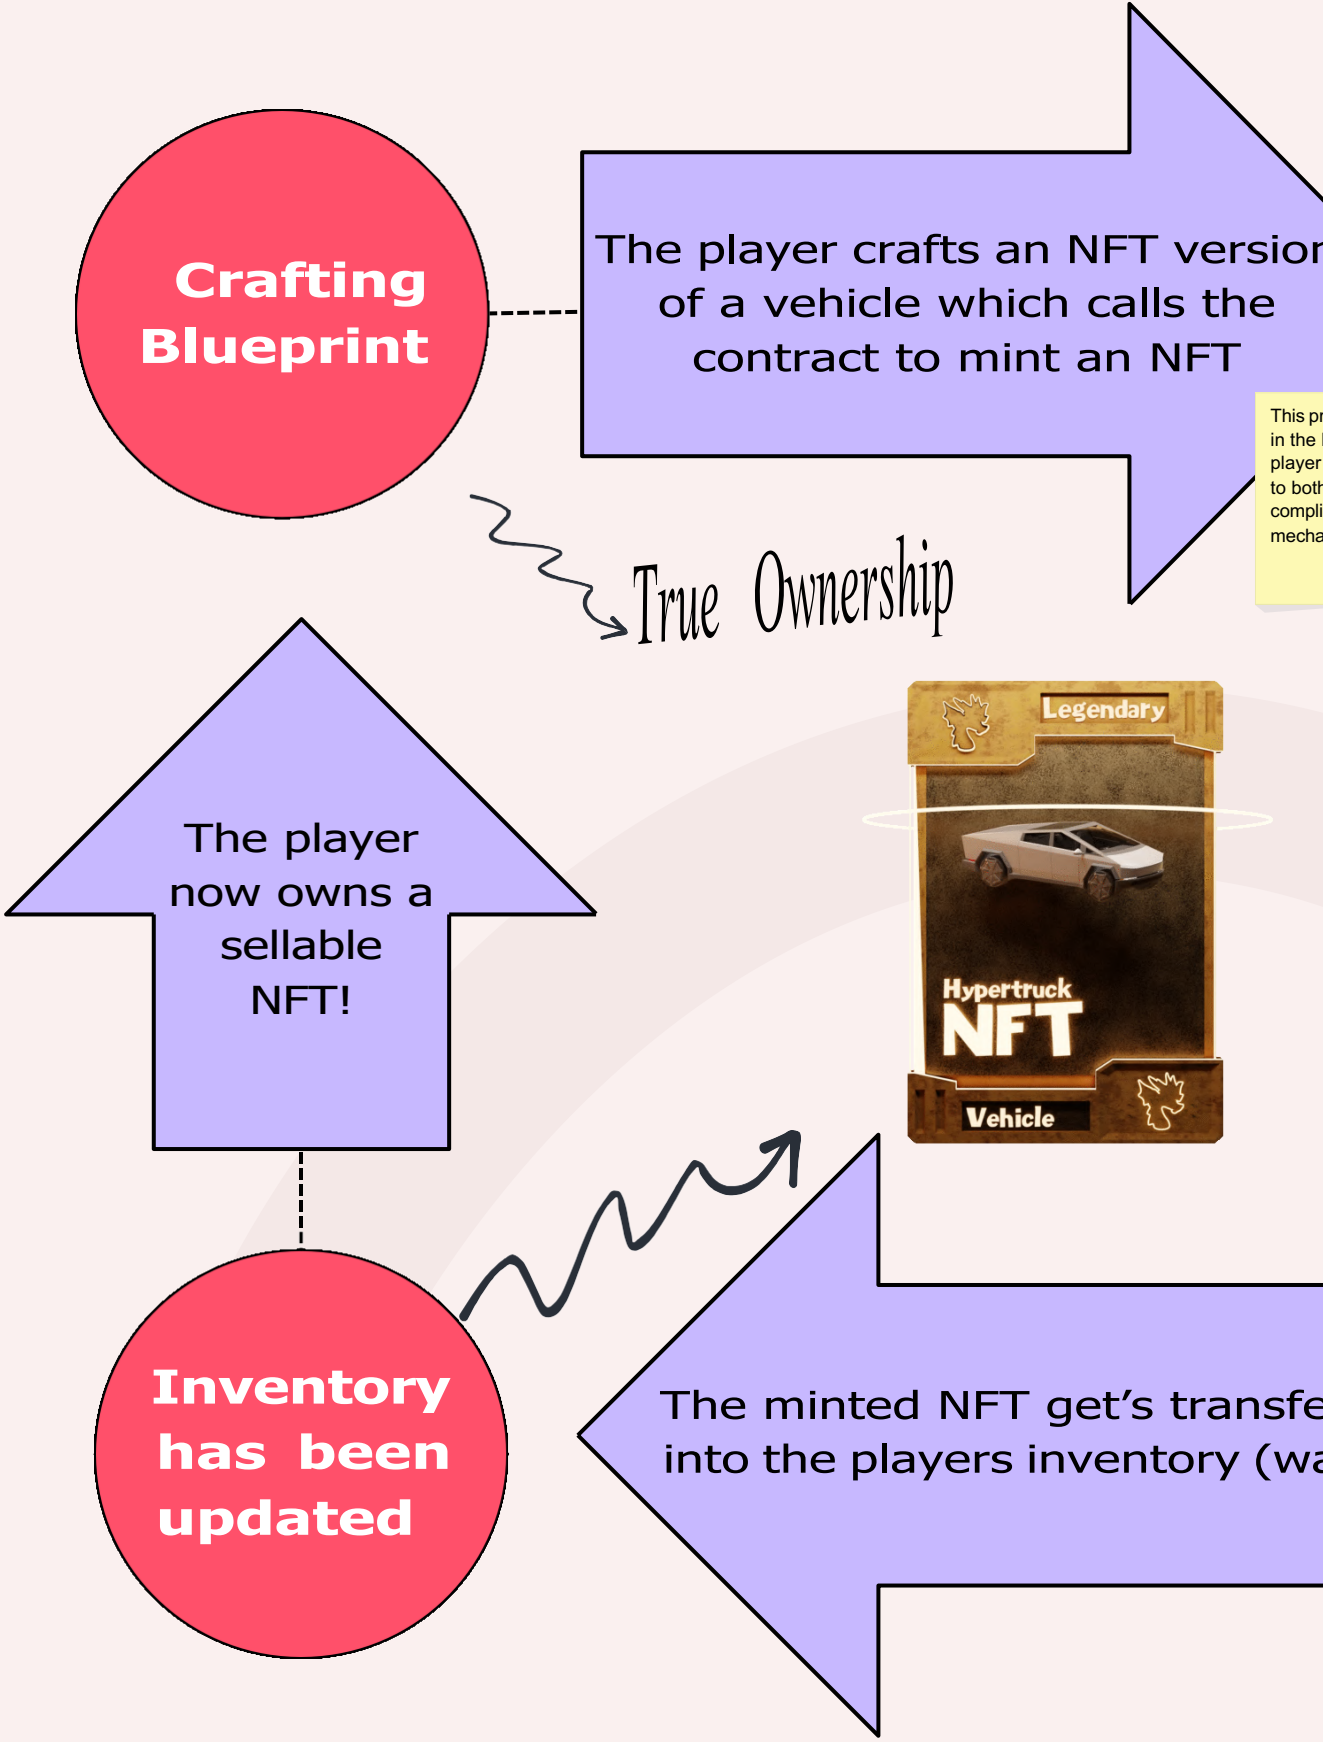

WHAT ABOUT REVENUE

Cinderwake offers a range of revenue models to support its gaming universe. The main four expected revenue streams

- Battle Pass Sales
- In-app Purchases
- Advertising
- NFT Sales Commissions

These revenue streams ensure Cinderwake's sustainability while providing diverse options for player engagement and enjoyment.

TOKENIZATION

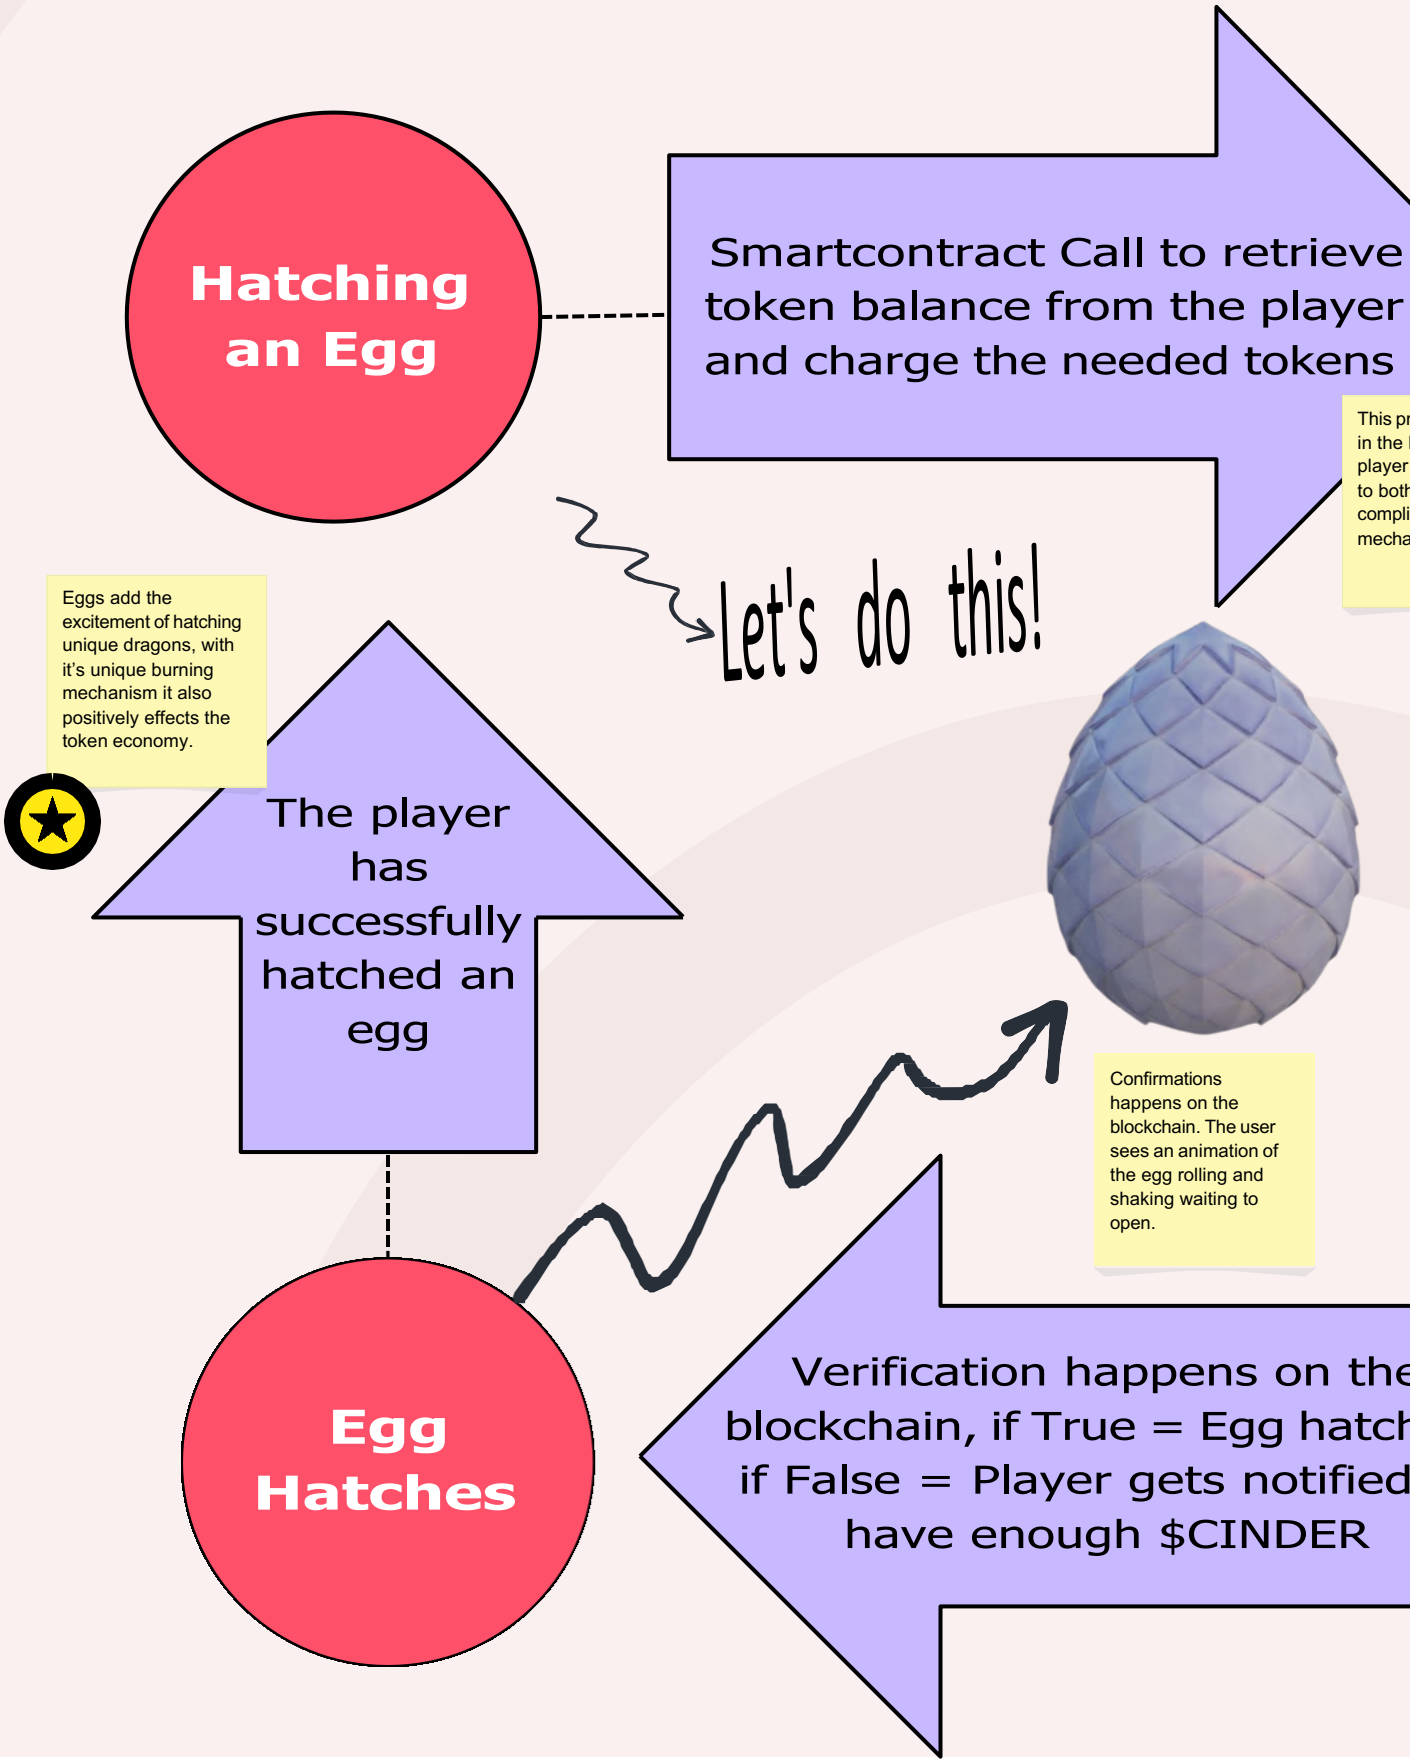

BURN TO HATCH

Cinderwake's innovative Web3 integration introduces a groundbreaking mechanism for supply reduction of its protocol token, \$CINDER. When players opt to hatch eggs, a predetermined amount of \$CINDER tokens are automatically burned, cleverly reducing the token's circulating supply. This ingenious approach not only fosters scarcity but also drives up the token's value by increasing its rarity.

Cinderwake's mechanism uniquely combines gameplay with tokenomics, incentivizing players and benefiting the token ecosystem. This innovative approach enhances both game engagement and tokenomics, distinguishing Cinderwake in Web3 gaming.

BURN MECHANISM

CINDERWAKE TOKEN

\$ CINDER, the native crypto token of Cinderwake, is now available in its ICO state. As an early adopter, you have the exclusive opportunity to become a part of this groundbreaking project to revolutionize the gaming industry. With a robust ecosystem promising tokenomics, \$CINDER offers a chance to capitalize on the growing intersection of gaming and blockchain technology..

\$CINDER USECASE

The \$CINDER token serves multiple key functions within the Ciderwake ecosystem:

1. **Egg hatching (Burning):** Players can utilize \$CINDER tokens to hatch eggs in the game, effectively burning the tokens as part of the hatching process.
2. **In-game currency:** \$CINDER serves as the backup currency within the game for purchasing items, cosmetics, or upgrades.
3. **Staking for Gaming Rewards:** Players can stake \$CINDER tokens to earn exclusive items and bonuses, encouraging them to hold onto the token, thus boosting participation in the Ciderwake ecosystem.
4. **Gacha boxes:** Players are incentivized to use \$CINDER tokens to perform certain actions faster within the game such as crafting/upgrading items and to open Ciderwake Gacha Boxes within the game.

Media & Press Releases: Consistently updated press releases with a wide range of media partners including IBC Group, Yahoo News, Bloomberg News and more will bring attention to Cinderwake, attracting new partnerships and players.

Influencers & KOLS: With over 3 years of experience interacting with Web3 influencers and KOLs, Cinderwake is partnering with some of the most trusted names in the space to promote the project and the game. An ambassador program is being developed to ensure long term partners and ongoing credibility within the space.

A large, dark, spiky dragon-like creature is shown in profile, breathing a stream of fire. It is positioned in a grassy field with trees in the background. The creature has a large, spiky crest on its head and back. The fire it breathes is bright orange and yellow, with a long, horizontal trail of flames extending towards the right. The background is a soft-focus landscape with green grass, trees, and a blue sky with light clouds. The overall scene is dynamic and action-oriented.
